TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python

Frontend: Angular, React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST API Development

Databases: MongoDB, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, API Integration, Socket.io, Axios

Core Concepts: OOP, DBMS, Authentication & Authorization

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

June 2024

Priga Solutions

- Built and deployed a scalable MERN stack e-commerce application with secure authentication, optimized RESTful APIs, and performance tuning using MongoDB, Express.js, React.js, and Node.js.
- Developed full-stack features across all layers of the application, enhancing functionality, database operations, and overall system scalability.
- Designed and managed data storage, retrieval, and validation logic to improve backend reliability and efficiency.
- Collaborated with cross-functional teams to debug, optimize, and deliver production-ready code aligned with project requirements.

Web Development Intern

December 2023

Kevell Guru

- Designed responsive, cross-browser compatible UIs using HTML5 and CSS3, translating design mockups into clean, user-friendly web pages with optimized performance.
- Collaborated with development teams to refine layouts, improve usability, and deliver production-ready frontend components meeting modern web standards.

PROJECTS

Mentor-Mentee Management Platform

Tech Stack: React.js, Node.js, MongoDB, Socket.io

- Developed a real-time mentoring platform featuring live chat, scheduling, and secure role-based access control using JWT authentication.
- Implemented MongoDB-backed data management with scalable backend APIs and responsive React.js frontend components.

FitShop – Online Fitness Product Store

Tech Stack: React.js, JavaScript, CSS, PostgreSQL

- Built a responsive e-commerce web application with dynamic product catalog, cart functionality, and smooth UI interactions using React Hooks for state management.
- Optimized frontend performance to deliver an enhanced user experience across devices.

AI Landing Page Generator

Tech Stack: React.js, Tailwind CSS, Axios, OpenRouter API

- Built a landing page generator integrating OpenRouter API with real-time preview and export functionality.
- Designed a modern, responsive UI architecture with optimized rendering for fast performance, applying RESTful API integration skills directly relevant to full-stack development.

EDUCATION

B.E. in Computer Science & Engineering

2022 – 2026

Kamaraj College of Engineering and Technology

CGPA: 8.30 | 83%

CERTIFICATION

Oracle Certified Java Foundations (1Z0-811)
